Frontend Web Developer with ability to learn and collaborate in rapidly changing environment. Willingness and eager to tackle web development challenges to create simple yet elegant user experience.

SKILLS

HTML | CSS | JAVASCRIPT | REACT | REDUX | GIT | GITHUB |

Projects

Personal Portfolio — https://niraj-amatya.netlify.app/

Technology used - React, HTML, CSS, Javascript, Github, Git

- Build a single page personal portfolio to showcase projects I have built.
- Created Mobile responsive user experience with Flexbox and Grid.
- Used Email.js for contact form and UUID npm package for unique ID.
- Custom buttons were created to interact with different components.

Foodie — https://hifoodie.netlify.app/

Technology used - React, HTML, CSS, Javascript, Github, Git, Axios, Firebase

- A react app to buy food online.
- Firebase database used to store data about food and users.
- Custom hooks created with axios to make http requests.
- Used different react hooks like useState, useRef, useEffect, useMemo, useCallbacks and useContext.
- Checkout Form with validations.
- Custom Buttons.

Your todo list — https://listyourtodos.netlify.app/

Technology used - React, HTML, CSS, Javascript, Github, Git

- A simple react app to list your todo lists.
- Todo lists can be added, edited and deleted.
- Lists can also be cleared at once.
